UCI National Short Course in
“Systems Biology of Morphogenesis & Spatial Information Flow”
January 7th - 12th /14th - 26th 2013

Course Registration Form

Return to: Karen Martin, Center for Complex Biological Systems, 2626 BioSci III, University of California Irvine, Irvine, CA 92697-2280, E-mail: kymartin@uci.edu or FAX to (949) 824-6444.

Registrant Contact Information:

Name: ........................................................................................................................................

Address: ........................................................................................................................................

......................................................................................................................................................

......................................................................................................................................................

E-mail: ........................................................................................................................................

Telephone .........................................................................................................................................

Lab/Institutional Affiliation: ..............................................................................................................

Position

Faculty: ........
Post-doc: ........
Grad. student: ........ (year: ........ )
Researcher: ........
Other: ........ (specify.........................................................)

Please note: the course is designed for researchers at the graduate level and above with little or no formal training in Systems Biology. Exceptions for junior researchers will be considered on a case-by-case basis.
Scientific discipline:
Please indicate the discipline most appropriate to your research background; you may select more than 1 option

- Biology ........ (Specialty..........................)
- Medical ........ (MD specialty....................)
- Biomedical Engineering ........
- Engineering ........
- Bioinformatics ........
- Computer Science ........
- Mathematics ........
- Chemistry ........
- Physics ........
- Other ........ (please specify........................)

Training/Background
Briefly describe your scientific background/training, your primary interest for participation in this course and any requests for tuition fee/travel support. This information will be used to balance participants from biology and non-biology disciplines and assist in decisions for course fellowship support. Please limit to 300 words or less.
All registrants participate in the Systems Biology Core Course focused on Morphogenesis & Spatial Dynamics (2 weeks; Monday, January 14th – Saturday, January 26th 2013).

In addition we strongly recommend registrants to choose 1 of the optional Introductory Workshops in the preceding week. Participants should select the workshop that best complements any deficiencies in their background i.e. biologists will generally choose the Mathematical/Computational Biology workshop, whereas computer scientists/mathematicians etc. will select the Biology Workshop.

CCBS at UCI is also hosting the 3rd Annual Southern California Systems Biology Regional Conference (SoCal SysBio) (1/26/2013). Registration for this conference is free to course participants. Please indicate if you wish to attend.

I wish to register for:
The Systems Biology Core Course (January 14th - 25th 2013) plus:

Monday, January 7th – Saturday, 12th 2013
Introductory Prep Workshop (select 1 workshop only !)
  a. Biology (Paradigms: theoretical & applied) ...........
  b. Mathematical/Computational Biology ...........

Saturday, January 26th 2013
Southern California Systems Biology (SoCal SysBio) Conference ...........

Lodging/Accommodation
Suites have been reserved at the Ayres Hotel and Suites/Newport Beach-Costa Mesa. Registrants can choose from single or double occupancy; or make their own off-site housing arrangements. Lodging rates are indicated in the following Table. Daily shuttle service to and from the Ayres Hotel and UCI campus is available. Daily breakfast, lunch and 3 evening dinners are provided while on campus.

Please indicate gender: Male ........... Female ...........

Tuition Fees & Travel Fellowships
Limited funds are available for partial support of graduate student and postdoctoral tuition fees and/or travel fellowships. Financial support is not guaranteed to all applicants but will be determined individually based on circumstances – please describe your financial needs and note availability of any matching funds in your background description above. Award recipients will be notified by November 13th 2012.
Course Registration Fees

Select the appropriate course options and lodging arrangements. Payment can be made by credit card and is due by Friday, December 7, 2012. A late fee of $100 will be charged after this date.
